

GOVERNING TRAFFIC SIGNAL TECHNICIAN APPRENTICES

GENERAL POLICY STATEMENT

August 2025

Basic Principles

It is the sincere desire of the Mountain States Line Constructors Joint Apprenticeship and Training Committee (JATC) to present an up-to-date and adequate program of training for all enrolled participants in order that they might receive the proper training required to perform the work of their trade. The JATC operates with the thought in mind that the apprentices who are being trained today are to become the journeymen of tomorrow and therefore find it necessary to conduct the Training Program with firmness and in accordance with the National Standards and Rules as set forth by the *electrical training ALLIANCE*. To promote a smoother operating program and for matters of clarification, the JATC therefore sets forth the following policies and rules, which must be observed by each apprentice in the Training Program.

It is the policy of the JATC to conform with Title 29 CFR. Part 30. We have adopted an "open door" policy of applications and notification of apprenticeship opportunities, adopted, and inserted where proper a non-discrimination clause, and adopted a selection procedure based on valid, proven minimum qualifications, plus oral interview to assure that entry into apprenticeship shall be on a basis of qualifications alone, without regard to race, color, religion, national origin, or sex.

Responsibility and Authority

The JATC is delegated the full responsibility and authority for the selection, qualification, education, training, evaluation, certification, and the supervision of all apprentices as well as all other matters regarding apprentices or apprenticeship.

Director

The Director shall act for, and under the direction of the JATC, in the administration of the Training Program.

At the discretion of the Director, apprentices will be required to appear for a performance review.

Applicants

To qualify for an apprenticeship an applicant must meet the requirements under **Section VIII** of the Standards.

Applicants will be given thirty (30) days to complete their application. Applications not completed within the allotted time will be marked void. Any such applicant must resubmit all documents to reapply.

Applicants applying to the program provide a current copy of their valid Driver's License and DOT Medical Examiner's Certificate.

A qualified applicant, not reached for indenture and currently on the pool list, may re-interview after one year. To qualify for the second interview, eligible individuals must document a significant effort to enhance their position on the pool list. Satisfactory completion of a trade related class or having worked at the trade a minimum of 500 hours qualifies as adequate effort. Any education or experience must have been obtained since the applicant's last interview.

Indenture

Each apprentice is indentured to the JATC and is directly responsible to them for all matters pertaining to their apprenticeship training.

All new indentures must read and understand the General Policy Statement Governing Traffic Signal Technician Apprentices and the National Apprenticeship Standards for the Outside Electrical Contracting

Industry and sign a Confirmation Statement.

All new indentures will need to sign the Apprenticeship Agreement and return it to the JATC as required by law. After receiving the initial job assignment, the agreement will be sent requiring your signature. You must sign and send it back immediately to the JATC. Failing to return the signed apprenticeship agreement within 1 week of receiving it will result in being removed from employment and your apprenticeship opportunity cancelled.

Probation Period

The probationary period is considered a continuation of the selection procedure. During the probationary period either party without the formality of a hearing may cancel the Apprenticeship Agreement. To be eligible to advance past the probationary period an apprentice must have worked a minimum of 1,500 non-penalized hours and been approved to be removed by a local Subcommittee.

After the probationary period, the JATC will cancel the Apprenticeship Agreement only after a formal hearing.

Request for Credit

Applicant/Apprentice may request credit for OJT hours worked in the Outside Electrical Construction Industry. Request must be made when the applicant is indentured and before the end of the probationary period as per the National Standards. To request credit, the individual must have a minimum of 1,000 hours of documented work experience. Requests will be reviewed by a local Subcommittee. Credit given will not exceed the hours outlined below. At no time will an accumulated total exceed 500 hours.
